Welcome to the Ardan wealth platform

INVESTING MADE EASY

The Ardan wealth management platform is ideal for international clients, trustees and corporate entities who want to hold all their investments in one secure place.

Rather than trying to track your investments across various institutions, each with their own dealing processes, paperwork and charging structures, you and your adviser can manage them all efficiently, securely and cost-effectively on the Ardan International platform.

And because our platform is designed specifically for internationally based investors like you, you can hold investments in different currencies and access investments from around the world with us.

PLATFORMS ARE THE FUTURE

Investment platforms are already the number one choice in the UK retail investment market, thanks to a winning combination of cost effectiveness, transparency and ease of use.

You'll have 24/7 access to up-to-date valuations and your adviser will be able to make trades to your portfolio.

With a single point of access to a wide range of investments and a bird's-eye view of your whole portfolio, it's easy for you and your adviser to review and monitor your position and make better financial decisions.

OUR PLATFORM PUTS YOU AND
YOUR ADVISER IN CONTROL OF
YOUR INVESTMENTS.

Is a wealth platform suitable for me?

FLEXIBILITY WITH SECURITY

At its heart, our platform is a secure online location where all your investments can be held and viewed in one place.

The platform has no entry costs, no exit costs, no lock in periods and lower ongoing fees (and potentially lower custodian and dealing fees) in exchange for a simple annual fee. Our fees are transparent and competitive.

Our platform is secure and uses the latest, cutting-edge technology to increase efficiency and lower the cost of the overall proposition.

Perfect for the internationally mobile investor.

We are listening to our customers and advisers, continually monitoring and developing the platform with a rolling programme of improvements to provide the best experience.

A truly international solution

It can be hard to manage your finances when you're moving from country to country or holding portfolios in different currencies.

That's where we can help. With your adviser, you can invest in any of our 11 currencies, hold cash and assets and trade securities in multiple currencies, switch currency online and move money between currency accounts.

You can hold a wide range of investments on our platform. Our open architecture platform allows investors to hold funds, tradeable assets such as equities and exchange-traded funds (ETFs) and structured notes.

And because everything is in one place, it's easy to get an overall view of your wealth.

Why should I choose the Ardan platform?

A SAFE AND COST-EFFECTIVE HOME FOR YOUR INVESTMENTS

Our platform has been designed to put you and your adviser in control of your investments. The online technology allows your adviser to manage more processes, helping to keep costs competitive.

TRANSPARENT, CLEAR
PRICING SCHEDULES WITH
LOW COST DEALING FEES.

Model Portfolio Managers

There is a growing demand for advisers and trust companies to outsource portfolio management responsibilities. Therefore, Ardan offers access to a number of carefully selected Model Portfolios created, monitored and updated by external and expert Discretionary Fund Managers. Alternatively, your adviser may have their own selection of Model Portfolios. Talk to your adviser about whether a Model Portfolio is right for you.

Protecting your assets

Your investments are safeguarded by us in line with best global practice and the stringent rules and guidelines of the Isle of Man Financial Services Authority.

All assets are held through a nominee company and client monies are held in segregated client bank accounts. We partner with major global institutions like Citibank and Allfunds to ensure safe custody of client assets and money.

This means that your assets are never commingled with the assets of Ardan, so, in the unlikely event that Ardan fails, your assets cannot be used by liquidators to repay the creditors of Ardan.

Ardan is independently audited by PwC and is obliged to report regularly to the Isle of Man Financial Services Authority to demonstrate compliance and complete reconciliation of the assets registered to us.

EXTERNAL RECOGNITION

Our strong progress has been recognised externally with Ardan winning the prestigious Best International Platform award at the International Investment Awards in 2016, 2017, 2018, 2020 and 2021.

About Ardan International

LAUNCHED IN 2013, THE ARDAN PLATFORM HAS GONE FROM STRENGTH TO STRENGTH

Our goal has always been to be the leading independent wealth management platform for the international financial services market.

With strong and committed ownership and our base on the Isle of Man, one of the world's leading international financial services centres, we've attracted investors from all over the world to hold their investments with us.

Reassuringly strong: part of IFGL

Being part of International Financial Group Limited (IFGL) offers Ardan's customers the reassurance and security of being part of a group that looks after assets of \$18 billion for over 215,000 customers.

With a sole focus on the international financial services market, IFGL has the expertise, commitment and financial strength to support our vision.

We are based on the Isle of Man

With a well established and successful life and pensions sector, the Isle of Man is a leading choice for international financial services.

The Isle of Man holds an Aa2 sovereign rating from Moody's for financial strength – a higher rating than the USA and the same rating as the UK, UAE and Hong Kong.

In 2021 the Isle of Man won the prestigious Best International Finance Centre in the prestigious International Investment Awards. It was the 8th time the Island had won the award in 10 years.

We're proud of our Isle of Man heritage and this even extends to our name – "Ardan" is Manx Gaelic for "platform".

In 2021 Ardan International was awarded a B (strong) rating for financial strength, and 4 stars for service, by independent actuaries AKG. AKG's report also commented on the benefits of IFGL's ownership of Ardan: 'As part of IFGL, Ardan International derives significant financial strength from being part of a group which holds a good level of solvency throughout all entities.'
